NUMERICAL DIRECTORY

ITS PRACTICAL USE IS TO GIVE

Information—as to street descriptions and their location on city map

Information—as to the location by number of intersecting streets and their relation to other numbers.

Information—as to the name of every householder at any given street number

Information—as to the name of every place of business and its nature at any given street number

Information—as to the location of telephones △, by street number

Information—as to resident home owners.

Information—as to the character of any street or district.

Information—as to the number of families living at any number and who they are

Information—as to the correct spelling of names when addresses are known

Information—as to sections capable of producing the greatest amount of business by personal solicitation or "direct mail

Finally—

It takes the "Who is it?" out of your neighborhood and adds another link to your chain of friendliness

THE PRICE & LEE CO.

NEWARK NUMERICAL DIRECTORY

EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of house [illegible] places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)
The [illegible] "r" between the street number and the name signifies "rear."
The [illegible] after a number signifies that the house, office or store of that number was vacant when canvass was [illegible]
[illegible] telephone at this number.
[illegible] after street description indicates odd numbers on right side of street.
[illegible] [illegible] that [illegible] has been secured during the canvass that the house is [illegible] some member of the family, but as the publishers cannot and do not guarantee the correctness of the information [illegible] the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publishers [illegible] information than that shown.
